📄 SUMMARY

I am a pre-final year Full Stack Developer with a passion for building efficient and scalable applications. I have the skills to manage both front-end and back-end development effectively, writing clean & maintainable code. With strong problem-solving abilities, I strive to enhance my technical skills and stay updated with industry standards to deliver high-quality solutions.

🎓 EDUCATION

Dr.Ram Manohar Lohia Avadh University ✉
B.Tech

2022 – Present | Ayodhya, India

🧠 SKILLS

Languages : C++, Javascript, Typescript

Libraries & Frameworks : React.js, Next.js(currently learning), Node.js, Redux Toolkit(currently learning) , Express.js , WebSockets, TailwindCSS

Databases : MongoDB, MySQL(currently learning)

Tools : Git & GitHub, Postman, VS Code

📁 PROJECTS

Munch.in (<https://bit.ly/4156F1R>) ✉

Munch.in is a full stack food delivery app that features -

- **Authentication:** Supports secured JWT and Google-based authentication.
- **Authorization:** Developed an authorization mechanism restricting cart access solely to authenticated users .
- **Address Management:** Easily add, edit, and manage multiple addresses.
- **Personalized Dashboard:** Custom user profiles with profile picture uploads.
- **Responsive UI:** Optimized for all devices with a smooth user experience.

QuickTalk (<https://bit.ly/42LomEW>) ✉

QuickTalk is a full stack real time chat app features -

- **Real-Time Chat:** Instant messaging with seamless connectivity.
- **JWT-Based Authentication:** Secure and reliable user login.
- **Profile Upload:** Customize profiles with profile picture uploads.
- **Responsive UI:** Optimized for all devices for a smooth experience.

VisualVerse (<https://bit.ly/4hJPpee>) ✉

VisualVerse is a cutting-edge SaaS application that transforms text into stunning images including features -

Authentication : Supports secured JWT authentication .

Authorization : Only authorized users can generate images, ensuring privacy and controlled access.

User Dashboard – User can easily manage and access all generated images in one place.

Good & Responsive UI : Intuitive, modern, and visually appealing design for seamless experience.

Optimized for all devices, ensuring smooth performance on any device.

ACHIEVEMENT

- Solved over 220+ problems on coding platforms.
